

# ENTAGO.READY ONBOARDING

## On-, Off- and Crossboarding

Give your new employees the best possible start in your company! **READY.ONBOARDING** supports you in designing a transparent and efficient induction process so that new employees can quickly settle into their new role.

It is often not easy to familiarise newly hired employees with their new tasks in a new environment.

With **READY.ONBOARDING**, you can quickly and effectively train, network and support new employees to increase engagement and boost productivity.

New employees are familiarised with the information and people they need even before they are hired.

A personalised user experience shows new employees what their

first day will look like and enables them to network with mentors, colleagues and team colleagues. They also have access to important content and resources.

Necessary administrative work, including e-signatures, is easily handled so that the new employees can concentrate on their new job from day one.

As soon as new employees start working, the next steps that are to be taken are highlighted by means of a dynamic home page. This updates with the employee's

ongoing progress. Also in combination with other **READY-Talent solutions**, the onboarding experience adapts individually so that your employees can focus on relevant content.

With **READY.ONBOARDING**, HR managers can easily create engaging experiences for new employees, facilitate the provision of resources and valuable content, and connect with supervisors and colleagues to create a welcoming environment for new employees.

As an HR leader, you can easily track the progress of new employees and employees moving

around within the organisation. Keep an eye on the status of onboarding and quickly and easily pinpoint potential bottlenecks to ensure a smooth process.

With our preconfigured **READY.ONBOARDING solution**, you can create appealing onboarding programmes that inspire your employees to develop their full potential.

In conjunction with the entire **ENTAGO.READY** suite, you can revolutionise your employees' experiences and achieve sustainably better business results.

## YOUR ADDED VALUE AT A GLANCE

Inviting and clear onboarding environment for new hires

Modern and dynamic homepage

Start the onboarding process even before your new employees' first day of work

Use pre-configured forms for convenient completion including electronic signatures

Handle cross-boarding processes for existing employees who are settling into a new role

Support your new employees in building important relationships in their corporate network and beyond.

Intelligent workflows to support onboarding and offboarding processes
