PAYROLL CH

READY.PAYROLL CH

Speed up the payroll implementation process with **READY.PAYROLL CH**. With **READY.PAYROLL CH**, we provide you with a pre-configured solution for personnel administration and payroll accounting in Switzerland, which can be used on-premise or cloud-based.

Our solution enables you not only to carry out the monthly payroll accounting but also to conveniently process the activities following the payroll run, such as the payment run or posting to financial accounting. In addition to standard reports, freely configurable evaluations ideally round off our package. Swissdec certification also guarantees that all social security components (AHV, ALV, etc.) are calculated in accordance with the law and that the evaluations produced are correct.

Contents of the solution:

- Execution of payroll run with all upstream and downstream processes
- Payroll accounting form
- Statutory evaluations
- Calculation of provisions 13. Monthly salary incl. SV share
- Wage garnishment at employee level defined subsistence level
- 130 preconfigured wage types (best practices)
- Pro rata calculations for entries and exits during the month
- Mapping of personnel administration processes
- Possible integration with the READY.CORE solution (SF EC)
